Subject: RE: HOA Pools in OC

Good afternoon,

Yes per State Health Order, pools are to remain closed. I just saw that LA County added reopening HOA/apartment complex public pools to their County Health Order however OC is still following State Guidelines. I know the frustration this causes however things change rapidly at the State level and hopefully just like hair salons being able to reopen in Stage 2, these types of pools will be given the clearance to reopen soon.

Thank you,
